

STATISTICS ON

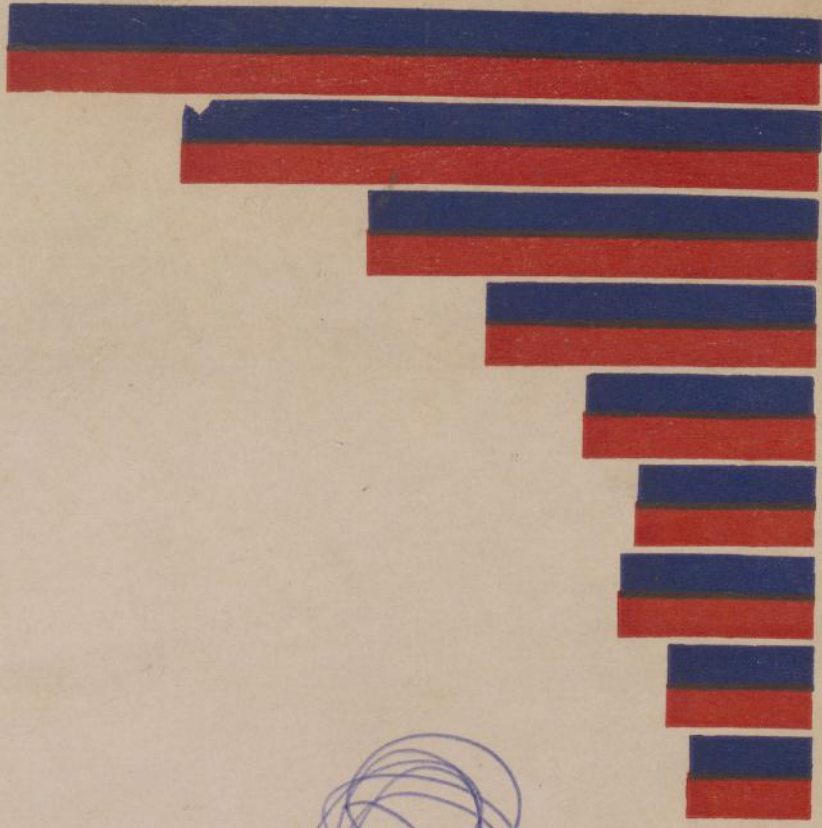

TOURISM

IN

NEPAL

1962-1970

Handwritten signature and scribbles in blue ink.

For Nepal tourism as an economic phenomenon is of recent origin. It was only in the early 1960s that Nepal got honourable mention in the list of popular Pacific destinations. Until 1966 Nepal's travel industry could not maintain a smooth growth rate due to lack of sufficient facilities of air-transportation, accommodation, sightseeing and so on. But with the subsequent expansion and improvement of these facilities in the late 60s the number of visitor arrivals to Nepal started to swing up. As a direct result of the improvement of tourism facilities, simplification of travel and frontier formalities and promotional activities in the tourist-originating countries, the tourism industry of Nepal enjoyed a mini-boom in 1970. An overall assessment of the past nine years shows that the preceding decade was a decade of achievement, of promise and of prospect.

Today, the world faces an enormous expansion in the field of tourism. Pressure will be increased manifold by this expansion. Opportunities will increase beyond our most optimistic calculations. Responsibilities will fall on the shoulders of those who are directly concerned with tourism and transportation of a magnitude as never dreamed of before. This enormous expansion will undoubtedly embrace Nepal and the whole of the Indian Sub-continent as well as Japan, Europe, Africa and America. It is, therefore, a world-wide explosion. Tourism is, in fact, an inter-disciplinary activity postulating

a high degree of co-operation from all sectors — private as well as public. Whether a hotelier, an air-carrier or a travel agent, it is imperative for all to have a peep into the world of tourist explosion of tomorrow and carefully examine whether we are really ready to receive this tremendous influx within our borders. It is high time that we see to it that no effort is spared for creating a healthy infra-structure and a pleasing super-structure.

The present trend of visitor arrivals to Nepal has been dramatic in comparison with that of some of the neighbouring countries. It is true that the average annual growth of 38.5% for the past 4 years may not be applicable to the coming years. But at the same time one should not forget that tourism is the fastest growing trade in the world. As a source of foreign exchange earning it is far more remunerative to Nepal than any other single export trade. Therefore, the promises of tourism industry can only be realised when there is a complete co-ordination and harmony between the public and private sectors in the implementation of various development programmes for the maximum utilisation of our natural and man-made tourism resources. It is the only way to make the travel industry contribute appreciably to the general welfare and prosperity of Nepal and also to the promotion of friendship and understanding among nations.

1. DEFINITIONS AND METHODOLOGY

For statistical purposes, we have defined tourists as the citizens of all foreign countries, except India, visiting the Kingdom of Nepal and staying at least 24 hours and utmost six months for Various purposes like recreation, health, study, religious pilgrimage, business, sightseeing, conference, mountaineering etc. Representatives or staff of organisations permanently stationed in Nepal are not included in the list of tourists.

The citizens of India and the people of Nepalese origin travelling from any country whatsoever to Nepal, are not considered as tourists. The statistics presented here do not include the state guests who are not required to fill up the Disembarkation Cards. The visitors making their entry at other parts of the country and then coming to Kathmandu Valley and travelling exclusively out of it are also excluded because the provision of filling up the disembarkation cards does not exist all along the border with India.

Since our definition does not include those tourists who do not stay at least 24 hours in Nepal, we have excluded the disembarkation cards received from the police check post at Lumbini.

The Department of Tourism has arranged for collection of disembarkation cards which the incoming visitors are required to fill up before they enter into Nepal either at the Tribhuvan Airport or at Birgunj Checkpost. The Department of Tourism receives these cards from the Immigration Offices and completes all the phases of processing from editing to tabulating and prepares the monthly results by the end of each month.

Monthly figures for the twelve months are compiled and analysed to present statistics based on the Gregorian Calendar. The U. S. S. R. has been treated as a separate continent following the pattern of the U. N. publication.

We have been able to make use of tourist statistics only since 1962. It is the 6th publication of Statistics on Tourism in Nepal. In this issue we have endeavoured to combine the statistics of 1969 and 1970 and attempts have also been made to show the detail statistics from 1962 to 1970.

A significant rate of increment can be noticed in the number of tourist arrivals every year since 1962. The year 1965 marks a slight decrease in the number of tourists due to the Indo-Pakistan border conflict. In 1970 the number of tourist arrivals was estimated to be 49,000 but due to hijacking and lockouts in the airlines of the neighbouring country the number of total arrivals was just 45,970. The following table shows a comparative and comprehensive view of the number and percentage of the tourists from 1962 to 1970:

Year	Number	Increment	
		(in number)	(in percentage)
		over the previous year	over the previous year
1962	6179	—	—

1963	7275	1096	17.7
1964	9562	2251	30.9
1965	9388	138	1.5
1966	12557	3179	33.9
1967	18093	5526	45.1
1968	24209	6116	33.8
1969	34901	10692	44.1
1970	45970	11069	31.5

The number of tourists in 1969 and 1970 has increased by 464. 8% and 644.0% in comparison to 1962 and 44. 2% and 31.7% over that of (1968 and 1966).

Among the main factors for such substantial increase in the influx of the tourist arrivals were the intensive promotional activities, the improved transport facilities, expansion of the hotel accommodations, modern banking facilities and the growing number of travel agencies in Nepal.

As in previous years in 1970 too, by nationality, the largest number of tourists came from the U. S. A., (31.2%) followed by France, (11.5%) and the United Kingdom

(11.3%). Tourists have also came in large numbers in the past four years from Germany (10.0%), Japan (5.0%) Australia (4.8%) Canada (3.2%) Italy (3.1%) and Switzerland (3.1%).

79.4% of the total arrivals came by air and 20.6% came by the land route. The airlines operating in Nepal are Thai, RNAC, IAC and PLA and of the total number of tourists coming by air, 21.2%, 29.9%, 9%, 34.2% came by, Thai, RNAC, PLA and IAC respectively. A sizable number of tourists have also come by chartered flights.

Most of the tourists visiting Nepal came for the purpose of sightseeing. They umnber 34,450 (74.9 %), and 918 (20%)

for bussiness and the remaining 10,602 (23.1%) came for other purposes such as official mission, expedition, study, pilgrimage etc. 10,007 (69.9%) of the U. S., 421 (7.98%) of the French, 3,623 (69.5%) of British, 3,743 (81.4%) of the German, and 1,645 (71.1%) of the Japanese tourists visited Nepal for sightseeing.

215 (1.5%) of the tourists from U.S., 187 (3.6%) from U.K. and 175 (7.6%) from Japan came for bussiness purposes.

Ever since 1962 the number of males is greater than that of the females. Male tourists 26156(56.8%) exceeded female tourists 19814 (43.1%)among the major nationality group in 1970. But from Africa, Thailand, Finland, Mexico, Nicaragua, Venezuela, Argentina, Uruguay, and Australia, the female tourists are slightly more than the male tourists.
